

Curriculum Impact Statement

At the Grange School, our core values of nurture, flourish, grow and kindness are deeply woven into everything that we do and play a fundamental role in the development of our pupils. We have created a rich and engaging curriculum which encourages our pupil's individual, personal growth, allowing them to develop a positive sense of self and a clear understanding of their own abilities. Pupils will be encouraged and supported to develop their own voice, providing them with the ability to take an active role in society and become valued citizens.

Through a focus on language acquisition and practical application, our curriculum seeks to instil a love of learning and culture of curiosity in our pupils, one that we truly believe will provide them with a range of transferable skills and individualised strategies that will be beneficial throughout their school journey and beyond. Our carefully crafted curriculum allows for meaningful consideration of each individual child, equipping them with a set of bespoke tools that will shape them into kind, acceptant individuals and will help to support the growth of their continued, post-education independence.
